## Characters on the Green

First-hand accounts compiling 40 years of golfing with zany personalities and their unique situations. It is NOT how to play the game; it is intentionally lighthearted and fun, much like the game of golf itself is supposed to be for amateurs. *Characters on the Green* will have a chapter that everyone will relate to when they think of different playing partners.

## Teed Off: A Golf Course Mystery

Fictional account of human skeletal remains found in a makeshift grave in the woods near the 16th fairway of the Fort Ryder Golf Course. The FBI becomes deeply involved as crime scene evidence reveals an unexpected discovery of the deceased's identity and the manner of death.
