"The Diary of Dusty Fisher"

Ride down a winding country road with Dusty Fisher, a young man and gifted musician from a small southern town, who sets out to master the world of country music only to become its most beloved star. But Dusty soon discovers that money and fame are not all they're cracked up to be, and he devises a ruse that will allow him to escape his current existence and trade it in for something better. But if he pulls it off, he'll have to give up everything—possessions, fame, friends, and a loving fiancée—to start a new life.
